WE HELP. YOU MOVE ON.

"My sister had a sudden medical emergency that took her to hospital and it was clear that she could no longer return to her home and live alone, and so a seniors residence was found for her and that's where Gordon's came in. Gordon's helped her move her personal effects and her furnishings that she could bring to her new residence, then they set her up in her new accommodation. The house was then put on the market for sale and Gordon's looked after that and sold the house on very favorable terms.

Throughout, Gordon's demonstrated professionalism, efficiency, and most importantly, a real sensitivity to just how traumatic it was for my sister to leave her house in the circumstances in which she found herself. The folks at Gordon's both in Kingston and in Ottawa were absolutely super. And so, if ever I have to move on, it will be Gordon's for me."

"I think of my friends who have moved and how much work it was for them, I recommend Gordon's over every other REALTOR. They never pushed us to do things we didn't want to do, we followed their advice and our house sold in a week. We loved working with them, and their motto, 'We help. You move on.' is so appropriate! It really felt like they just picked up our old home and moved it into this one. **There's no way we would have been able to do it without them!**"
