Notes and Recommendations

* CONSIDER ADDITION OF
① WATER SOFTENER
② ULTRA VIOLET LIGHT

Static 27.2 ft. | Static at end of pumping 31.6 ft. | Final recovery 27.2 ft. | Total pumped 258 usgal.

The data in the attached table supports the conclusion that the well is producing 4.3+ usgal per minute.

I hereby cetifiy that the data on this report is true and accurate to my knowledge at the time of testing.

Name: WILL HAMILTON **Signature:** _____ **Date:** MAY 12, 2026

The pumping test has been done in accordance with the requirements in the *Water Act* and the Ground Water Protection Regulation.
PLEASE NOTE: The data recorded in this pumping test report reflect conditions at the time of the test. Water levels, well performance, estimated long-term well yield and water quality are not guaranteed as they are influenced by a number of factors, including natural variability, human activities, and condition of the works, which may change over time.
